ABOUT ME

B.Sc. Information Technology student with hands-on experience in web and Android application development. Skilled in React.js, Firebase, Java, Python, MySQL, and JavaScript. Completed a Data Engineering internship involving data transformation, database management, and analytics. Passionate about building scalable applications and solving real-world problems through technology.

EDUCATION

Bachelor of Science (B.Sc.) in Information Technology

Mumbai University - CGPI : 8.30

June 2023– April 2026

Higher Secondary Certificate (HSC)

Maharashtra Board – 73.83%

February 2023

Secondary School Certificate (SSC)

Maharashtra Board – 82.40%

May 2021

PROJECT'S

Mohan Logistics Express Cargo – Transport Load Management & Live Tracking System

Role: Frontend/Web Developer

Tech Stack: React, Vite, Tailwind CSS, Firebase Authentication, Firestore, Google Maps API, JavaScript, HTML, CSS

- Engineered a web-based logistics management system for transport load and parcel tracking.
- Established role-based access controls for customers, office staff, drivers, and administrators.
- Created shipment request and load management workflows with nearest office assignment functionality.
- Integrated Google Maps API to enable live vehicle and shipment tracking.
- Enabled shipment status updates, delivery proof uploads, and automated notification features.
- Utilized Firebase Authentication and Firestore for secure user management and real-time data storage.
- Crafted a responsive and user-friendly interface using React, Vite, and Tailwind CSS.

Smart Turf Booking and Management System

Role: Web Developer

Tech Stack: HTML, CSS, PHP, MongoDB, VS Code

- Created a web-based platform for online sports turf booking and management.
- Implemented real-time slot availability checks to prevent double bookings and scheduling conflicts.
- Built an intuitive booking module for selecting dates, time slots, and booking durations.
- Developed an administrative dashboard to manage bookings, pricing, schedules, and user records.
- Automated booking cost calculations based on selected reservation hours.
- Integrated MongoDB for storing booking, user, and payment-related information.
- Leveraged PHP for backend processing and database operations.

Soft Drink Management System (SDMS)

Role: Android Developer

Tech Stack: Kotlin, Firebase Realtime Database

- Built an Android application using Kotlin and Firebase Realtime Database.
- Established a role-based access system for different user types.
- Managed product inventories and order records through Firebase CRUD operations.
- Integrated Firebase Authentication to ensure secure user login and access control.
- Designed a RecyclerView-based interface for efficient product and order management.
- Enhanced application workflows for distributors and inventory record management.

INTERNSHIP

Dec 2024 - May 2025

Vyosim Pvt. Ltd

Data Engineer Intern

- Completed a 6-month Data Engineering internship focused on data cleaning and file format conversion.
- Worked on data updation and transformation using Excel.
- Gained hands-on experience with MySQL and NoSQL for data storage, querying, and partitioning.
- Assisted in data analysis and automation using JavaScript.
- Managed and optimized large datasets for reporting and analytics.
- Implemented data validation and consistency checks to ensure data accuracy across systems.
- Contributed to performance tuning and query optimization to improve database efficiency.

ACHIEVEMENTS

- Recognized as Best Sports Person for outstanding participation and performance.
- Coordinated onboarding and team support activities during internship.
- College Technical Event Participation

SKILLS

Programming Languages: Java, Python, JavaScript, C, C++, Kotlin (Basic)

Web Technologies: HTML5, CSS3, React.js, Tailwind CSS, Node.js

Databases: MySQL, MongoDB, Firebase Realtime Database

Tools & Platforms: GitHub, VS Code, Android Studio, Power BI, MS Office Suite, Microsoft Excel

Core Concepts: Data Structures & Algorithms (DSA), Networking, IoT, Role-Based Authentication

Operating Systems: Windows, Linux (Basics)

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability

ADDITIONAL INFORMATION

Languages: English, Marathi , Hindi

Hobbies: Playing sports , Listening to Music, Trekking

Extracurricular Activities: Event & Program Management, Actively participated in college-level sports events and competitions , Involved in volunteer work and team coordination activities
